

MTI Wireless Edge Ltd
("MTI" or the "Group")

Notice of Results and Investor Presentation

MTI Wireless Edge Ltd. (AIM: MWE), the technology group focused on comprehensive communication and radio frequency solutions across multiple sectors, is pleased to confirm that it will announce its financial results for the year ended 31 December 2023 on Monday, 11 March 2024.

Moni Borovitz, Chief Executive Officer, will provide a live investor presentation relating to the financial results via the Investor Meet Company (IMC) platform on Monday, 11 March 2024 at 10:00am UK time.

Investors can sign up for free via: <https://www.investormeetcompany.com/mti-wireless-edge-ltd/register-investor>

Investors who have already registered and added to meet the Company, will be automatically invited to the meeting.

The presentation is in line with MTI Wireless Edge's commitment to ensuring appropriate communication structures are in place for all sections of its shareholder base.

Questions can be submitted pre-event through your IMC dashboard up until 9:00am the day before the meeting or at any time during the live presentation. Management may not be in a position to answer every question it receives but will address those it can while remaining within the confines of information already disclosed to the market. Responses to the Q&A from the live presentation will be published at the earliest opportunity on the Investor Meet Company platform.

About MTI Wireless Edge Ltd. ("MTI")

Headquartered in Israel, MTI is a technology group focused on comprehensive communication and radio frequency solutions across multiple sectors through three core divisions:

Antenna division

MTI is internationally recognized as a producer of commercial off-the-shelf and custom-developed antenna solutions in a broad frequency range of HF to 170 GHz for commercial, RFID and military applications. MTI continuously invests in ground breaking technologies, explores new frequencies, and devises innovative solutions which empower our wireless communication customers with cutting-edge off-the-shelf and custom-made antennas.

We are at the forefront of technology and innovation, being the first to introduce Dual Band parabolic antennas, E Band Automatic Beam Steering antennas, E Band FCC compliant flat antennas, and more.

MTI supplies directional and omnidirectional antennas for outdoor and indoor deployments, including smart antennas for 5G backhaul, Broadband access, public safety, RFID, base station and terminals for the utility market.

Military applications include a wide range of broadband, tactical and specialized communication antennas, antenna systems and DF arrays installed on numerous airborne, ground and naval, including submarine, platforms worldwide.

Water Control & Management division

Via its subsidiary, Mottech Water Solutions Ltd ("Mottech"), MTI provides high-end remote control and monitoring solutions for water and irrigation applications based on Motorola's IRRInet state-of-the-art control, monitoring and communication technologies.

As Motorola's global prime-distributor Mottech serves its customers worldwide through its international subsidiaries and a global network of local distributors and representatives. With over 25 years of experience in providing customers with irrigation remote control and management, Mottech's solutions ensure constant, reliable and accurate water usage, increase crops quality and yield while reducing operational and maintenance costs providing fast ROI while helping sustain the environment. Mottech's activities are focused in the market segments of agriculture, water distribution, municipal and commercial landscape as well as wastewater and storm-water reuse.

Distribution & Professional Consulting Services division

Via its subsidiary, MTI Summit Electronics Ltd., MTI offers consulting, representation and marketing services to foreign companies in the field of RF and Microwave solutions and applications including engineering services (including design and integration) in the field of aerostat systems and the ongoing operation of Platform subsystems, SIGINT, RADAR, communication and observation systems which is performed by the Company. It also specializes in the development, manufacture and integration of communication systems and advanced monitoring and control systems for the Government and defence industry market.
