MTI Wireless Edge Ltd
("MTI" or the "Group")

Multiple contract wins worth c. US\$6m

A series of primarily defence sector orders received equivalent to over 10% of FY 25 annual revenues

MTI Wireless Edge Ltd (AIM: MWE), the technology group focused on comprehensive communication and radio frequency solutions across multiple sectors, is pleased to announce that the Group has received multiple orders totaling approximately US\$6m.

The main orders include: i) a US\$2.2m contract for PSK to supply communications infrastructure to the Israeli Ministry of Defence; ii) a US\$1.9m contract to supply military antennas to an international defence company; iii) a US\$0.5m contract for military antennas from a local defence company; and iv) additional orders totaling approximately US\$1.3m for MTI Summit to supply components primarily to a defence company. These orders are expected to be delivered during 2026 and 2027.

MTI's CEO, Moni Borovitz, commented:

"I'm extremely proud of our sales and marketing teams for securing these orders under the current challenging conditions. Importantly, every order is from an existing customer reflecting the confidence they have in our solutions and ability to deliver. Overall, the volume of orders significantly enhances our order book for FY 26 and FY 27 and supports our ability to continue to grow our business."

About MTI Wireless Edge Ltd. ("MTI")

Headquartered in Israel, MTI is a technology group focused on comprehensive communication and radio frequency solutions across multiple sectors through three core divisions:

Antenna division

MTI is a world leader in the design, development and production of high quality, state-of-the-art, and cost-effective antenna solutions including Smart Antennas, MIMO Antennas and Dual Polarity Antennas for wireless applications. MTI supplies antennas for both military and commercial markets from 100 KHz to 174 GHz.

Internationally recognized as a producer of commercial off-the-shelf and custom-developed antenna solutions in a broad frequency range, MTI addresses both commercial and military applications.

MTI supplies directional and omnidirectional antennas for outdoor and indoor deployments, including smart antennas for 5G backhaul, Broadband access, public safety, RFID, base station and terminals for the utility market.

Military applications include a wide range of broadband, tactical and specialized communication antennas, antenna systems and DF arrays installed on numerous airborne, ground and naval, including submarine, platforms worldwide.

Water Control & Management division

Via its subsidiary, Mottech Water Solutions Ltd ("Mottech"), MTI provides high-end remote control and monitoring solutions for water and irrigation applications based on Motorola's IRRInet state-of-the-art control, monitoring and communication technologies.

As Motorola's global prime-distributor Mottech serves its customers worldwide through its international subsidiaries and a global network of local distributors and representatives. With over 25 years of experience in providing customers with irrigation remote control and management, Mottech's solutions ensure constant, reliable and accurate water usage, increase crops quality and yield while reducing operational and maintenance costs providing fast ROI while helping sustain the environment. Mottech's activities are focused in the market segments of agriculture, water distribution, municipal and commercial landscape as well as wastewater and storm-water reuse.

Distribution & Professional Consulting Services division

Via its subsidiary, MTI Summit Electronics Ltd., MTI offers consulting, representation and marketing services to foreign companies in the field of RF and Microwave solutions and applications including engineering services (including design and integration) in the field of aerostat systems and the ongoing operation of Platform subsystems, SIGINT, RADAR, communication and observation systems which is performed by the Company. It also specializes in the development, manufacture and integration of communication systems and advanced monitoring and control systems for the Government and defence industry market.
